

About Us

Not-for-profits are vital to our communities - sparking change, inspiring creativity, and bettering lives.

Vantage Point exists to support the people moving these organizations forward - Executive Directors, board members, senior leaders, managers, staff, and volunteers.

Not-for-profit professionals approach us for training and consulting in: governance, leadership, planning, and human resources. We are passionate about what we do, and as a not-for-profit ourselves, we will deeply understand your challenges, goals, and where you want to go next.

The majority of our programs are facilitated by our team of over 150 Knowledge Philanthropists - who volunteer their time to support your organization. These individuals are proven experts in their fields and are dedicated to sharing their knowledge with you.

Our mission is to transform not-for-profit organizations by convening, connecting, and equipping leaders to lift organizational capacity. Every client leaves our programs with resources to excel in their role and grow the impact of their organization.

Whether you are seeking professional development or broader services to support your organization - we are here for you. Keep in touch and [sign up for our newsletter](#) today.

Vantage Point is a registered charity. Our charitable number is: 11926 1238 RR0001.
