## Your Not-for-Profit Career Has Begun. Now What?

Are you a young professional (18-35 years old) who works in the not-for-profit sector? Join us! We invite you to join us for an evening of collective learning as we explore accessibility and advancement opportunities for young professionals within the not-for-profit sector. Through shared dialogue, you can add your perspective and learn about the experiences of peers in the sector. By discovering our collective experience, we hope this gathering will initiate a network of peer to peer supports that will lift up more young leaders to thrive in the sector today and into the future! This event is hosted by Vantage Point and will support Vantage Point in expanding its learning opportunities and services to young professionals.
