

Leading from Within

Amplify your strengths, clarify your values, and enhance your leadership impact.

Think of one or two leaders who have inspired you in life. If you were to come up with adjectives to describe them, what are they? Everyone is unique, but chances are words like "**authentic**", "**reliable**", and "**strong**" showed up. These words are all related and part of what makes a great leader - and you will have the chance to **explore how they relate to you, personally**, in this half-day workshop.

In **Leading from Within**, you will explore your personal leadership strengths, clarify your values, and envision your desired leadership impact. With a deeper understanding of yourself you can:

- Get energized by spending more time working in areas of strength
- Align your values and actions to live more authentically (and boost your credibility as a leader)
- Take immediate steps to create your desired leadership impact
